Testing the web application UI by giving the required inputs:

The screenshot shows a web application interface with a blue header bar containing a hamburger menu icon and the text "Home". The main content area is light gray. A white "Booking" form is centered. The form has a title "Booking" in blue. It contains three dropdown menus: "Boarding Station" with "Vijayawada" selected, "Destination" with "Chennai" selected, and "Seat" with "Select option" selected. Below these are three text input fields: "Name *", "Age *", and "Mobile no *". At the bottom of the form are two blue buttons: "SUBMIT" and "CANCEL".

This screenshot shows the same "Booking" form as the previous one, but with the "Seat" dropdown menu open. The dropdown menu displays a list of options: "1", "2", "3", "4", and "5". Option "3" is highlighted in blue, indicating it is the selected option. The "SUBMIT" button is partially visible at the bottom left of the form.
